Mr. Richard P. Bedier
Box 321
Green River, Utah 84525

Dear Mr. Bedier,

The material you are removing, or plan to remove, from your mining claims is a salable mineral material, not a locatable mineral. If you were crushing the stone and removing the minerals present it would be classed as a locatable, but where the stone is being sold in blocks, with any minerals present not being processed, it is classed as a salable mineral material. In order for the BLM to issue a mineral material sales on the stone being mined, the mining claims will have to be relinquished back to the Public Domain.

Mining Notice U68-N86-01 will have to be closed out as soon as possible. I am enclosing a copy of Subpart 3610-Mineral Material Sales, suggested prices, and a Disclaimer of Interest in Mining Claims.

If you have any questions please call Max Day at (801) 259-8193.

Sincerely yours,

/s/ ELMER DUNCAN
